Smarkets
Los Angeles, CA

Dear Smarkets Hiring Manager,

This letter is to express my interest in bringing my enthusiasm and engineering savvy to Smarkets, for the Front-end Software Engineer. I have recently graduated with a BS degree in Computer Science from University of Southern California Los Angeles in August 2018. I am certain my ability to work well in a team, academic qualifications, and passion for the field make me a strong candidate and a valuable addition to your team.

I have a deep-seated passion for web development especially Front-end including jQuery, React.js, Vue, CSS, JavaScript and Java. I have wanted to work in the industry since childhood and trying hard to come to USA would be the realization of a dream. To aid this goal, I have sought out and developed experience designing and building web .

Throughout my journey I have learned the importance of working in teams. For two years I worked as a Front End Developer, a small start-up. Oftentimes solving problems required me to tightly integrate with different teams; whether it was calling ad-hoc group meetings to fix an issue to help them meet a deadline, I helped the team resolve issues they encountered.

My experience and education have given me the knowledge needed to excel in the position. I am passionate about web and the opportunity to work for Smarkets I appreciate the opportunity to be considered and look forward to discussing my application and qualifications in person at your convenience.

Sincerely,

Shokoufeh Namazian,
(310) 905-7124
11620 Ohio Ave, Apt 5
